

The Honorable Mitch McConnell Majority Leader United States Senate Washington, DC 20510

The Honorable Mike Enzi Chairman Committee on Budget United States Senate Washington, DC 20510

The Honorable Orrin Hatch Chairman Committee on Finance United States Senate Washington, DC 20510

December 15, 2016

The Honorable Paul Ryan Speaker United States House of Representatives Washington, DC 20515

The Honorable Tom Price
Chairman
Committee on Budget
United States House of Representatives
Washington, DC 20515

The Honorable Fred Upton
Chairman
Committee on Energy & Commerce
United States House of Representatives
Washington, DC 20515

Dear Senator McConnell, Speaker Ryan, Chairmen Enzi, Hatch, Price and Upton:

On behalf of the Partnership for Medicaid – a nonpartisan, nationwide coalition of health care providers, safety net health plans, counties, and labor - the undersigned organizations write to provide input on ongoing conversations on Capitol Hill regarding the future of the Affordable Care Act (ACA).

We understand that among the options being considered by congressional leaders at this time is a repeal of the ACA in early 2017 — including a full rollback of Medicaid expansion — with a commitment to passing a replacement of the law at a later date. We believe a decision to repeal the ACA before enactment of a permanent replacement could lead to significant disruption for the American people and for the health care industry.

As you know, the Medicaid program has served as the vehicle for coverage for the majority of those covered under the ACA. As the foundation of the health care safety net, Medicaid covers more than 70 million people in the country, is a leading economic force in state and local economies, and vital to the financial stability of safety net providers. Today, more than 90 percent of people in the United States have health care coverage – the highest level in history. We urge you to ensure that all of these people retain access to affordable coverage and health care services in the future. We are concerned that a decision to repeal the ACA before replacing it with a permanent plan will lead to uncertainty in future coverage sources for affected patients, providers, health plans, and employers.

Health insurers have indicated that under a scenario where the law is repealed without a replacement plan in place, they may not be able to continue to provide coverage options in 2018 or even sooner. Health care providers would be unable to adequately plan for the future. States and local governments,

already constrained by tight budgets, could be left with no choice but to cut health care spending without proper time to plan for sustainable alternative solutions.

Most importantly, more than 20 million patients, including more than 10 million people who gained coverage through recent Medicaid expansions, would remain in limbo regarding the future of their health coverage.

We urge congressional leaders to take the time needed to develop and enact effective policies to ensure coverage and access to affordable care for Americans under Medicaid and other programs. Before enacting any major policy changes, we urge Congress to consult with all key stakeholders, including states, counties, providers, health plans, and patients, to ensure Congress has the information it needs to make well-informed decisions. The Partnership looks forward to continuing to work with Congress to find innovative ways to improve health care delivery.

Sincerely,

AFL-CIO
